QUESTIONS	ANSWERS
Question 1	Answer 1
In the Service contract notice, it is mentioned a 'representative sample of 13 Euro Mediterranean Countries' but there are not details of the countries included. Shall we assume that it would be the same countries as in 2018: Tunisia, Algeria, Poland, Italy, Portugal, Netherlands, Austria, Jordan, Finland, Palestine, Israel, Croatia and France	The 13 Countries to be polled are identified for each wave of the Intercultural Trends Survey according to a rotation system. Accordingly the composition of countries differs for the different poll waves. Some countries however are included in different waves to allow for comparison of data over time – as such over the years a few countries have been polled more than once. The list of the 13 Countries will be indicated in the Terms of Reference.

Those clarifications correspond to questions sent up until the deadline indicated under point 5 of the Service Contract Notice. Other clarification requests received after the deadline will not be published.
