

To whom it may concern,

The Student Activities Office in Al Akhawayn University fosters an environment that cultivates students' success by promoting student governance, intellectual, cultural, social, recreational and leadership activities outside the classroom which prepare students for adult and professional life by presenting diverse perspectives to reflect upon their experience.

The Student Activities Office is home of many student organizations and clubs initiated by AUlers to learn new skills, participate in the vibrance of campus life, and make impact on the community. Four types of Student Organizations exist currently within the SAO: Social and Humanitarian, Cultural, Entertainment, and Educational.

This is to certify that the Student Organization Mimouna Club exists currently within the structure of the SAO as an active club.

We remain at your disposal if any additional information is needed,

Cordially,

Mr. Mohamed Atti  
Student Engagement Officer
