

Muzeiko Children's Museum Bulgaria

- Established in 2015
- The biggest science museum for children in South East Europe
- Stimulates the interest of children and young people in science, technology, art through creative pedagogies and constructivist approaches to learning

We at MUZEIKO care for the future. Our goals are to:

spark children's curiosity towards science and learning through interactive play

enhance teachers and students

encourage quality and joyful family time

explore the wonders of science and technology

inspire the future leaders and entrepreneurs to think, explore, create, learn, risk, and succeed

The space to think, play and create

- 2000 sq. m indoor exhibit space
- 130 interactive installations
- over 50 educational programs
