Connecting Pilot initiatives to Decision Makers...
Boosting Sustainable Development!

PILOT4DEV is an independent initiative that connects global stakeholders active in Pilot development initiatives in the areas of Climate, Cities, Governance, Conflicts/Stability, the Environment and more generally the implementation of SDGs including Gender Equality. www.pilot4dev.com

PILOT4DEV BROCHURE

**CONNECTING PILOT INITIATIVES TO DECISION MAKERS...
BOOSTING SUSTAINABLE DEVELOPMENT!**

PILOT4DEV is a Think-Tank that connects global stakeholders active in Pilot development initiatives in the areas of Climate, Cities, Governance, Conflicts/Stability, and more generally the implementation of SDGs including Gender Equality.

It gathers enthusiastic personalities, active organizations and pioneering initiatives.

The objectives of the organization are:

- To promote sustainable development, climate adaptation, security and the implementation of S.D.Gs
- To combine research and action, and exchanges across countries.
- To propose a diversity of narratives and promote exemplary initiatives
- To strengthen existing actions and propose cooperation projects
- To connect stakeholders, build up cooperation, and stimulate knowledge exchange
- To work on advocacy and decision-making

Our values are Independence, Sustainability and Positive impact.

PILOT4DEV activities connect civil society, academic, and pioneering initiatives with decision-makers.

We organize:

- Events, workshops and conferences
- Interactive panels of experts
- Knowledge Exchange among stakeholders
- Field and study visits
- Training, capacity building
- Informal and formal events

We draft:

- Reports
- Analysis, Publications
- Dossiers, Collective Books

We support:

- Dissemination of research on conflicts prevention
- CSOs and Development initiatives in several countries
- Visibility of pioneering initiatives in urban design
- Joint projects and partners' search

We promote :

- Initiatives and Exchange
- Diversity of views
- Sustainability and Impacts

“There is no Magic Recipe for Sustainable Development”
