Smile it's Contagious!

A wonderful initiative by Rashed Kheir's team and volunteers!

It's amazing how a simple smile can brighten up someone's day and spread positivity. In times of crisis or difficulty, it's important to remind people that there is still hope and good things to look forward to.

It's a small gesture, but it can go a long way in uplifting people's spirits and bringing communities together.

Self-Expression

Please contact us for more information

Tales of Freedom

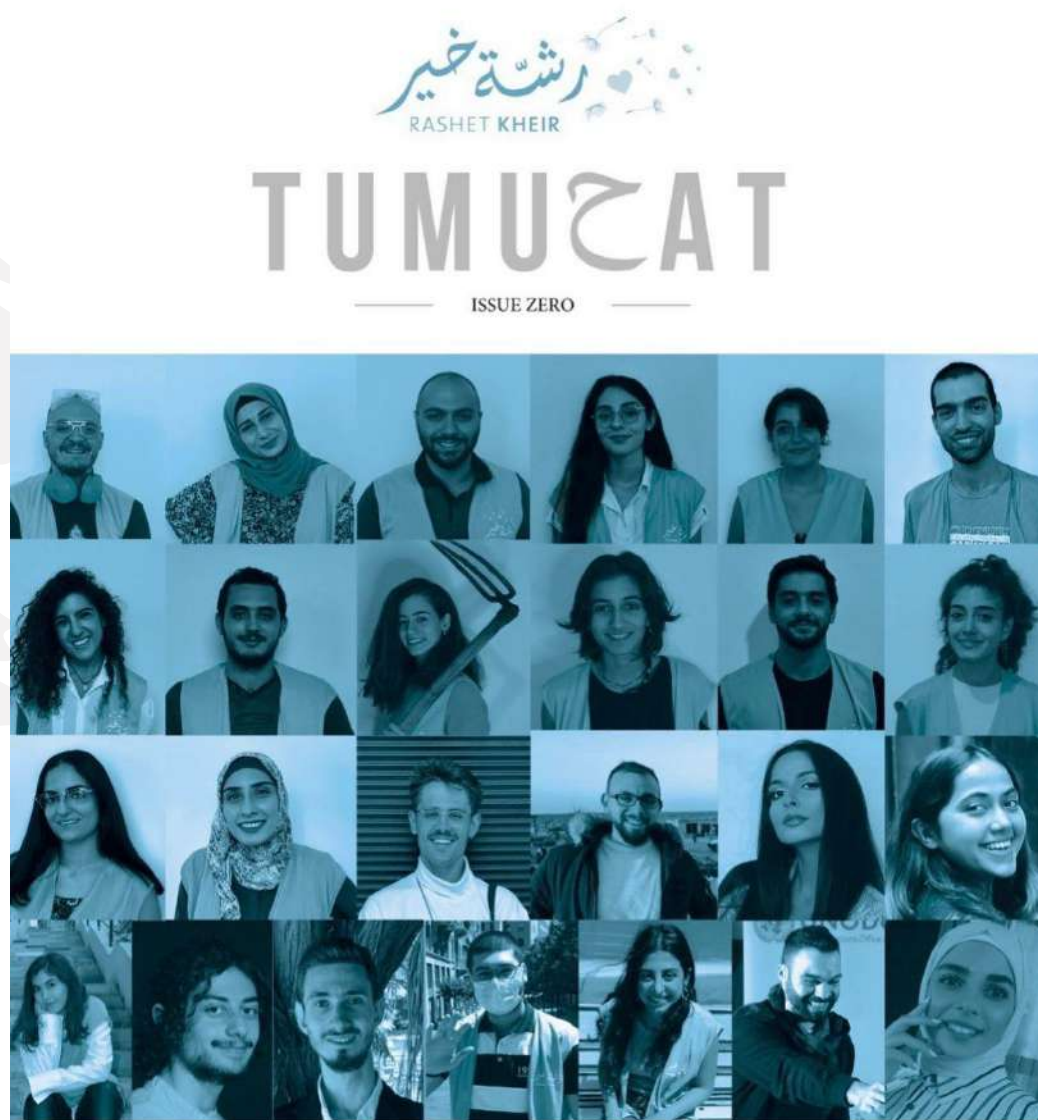

"Tales of freedom" is a work in progress theater performance written by the actors under the supervision of Jean-Paul Osta, the self-expression Peer Educator at Rashet Kheir.

The events of this story take place in a common prison, where each character expresses his/her past and inner struggles turning this prison into the psychological realm of the human mind. This will show a realistic simulation mixed with absurdity, as it takes on the global nature of the existential struggle for freedom
