

## **Association: Forpaja**

### **STATUS**

- Considering the international economic situation and its harmful trace on the young social layers.
- Since our world is threatened by violent extremism, terrorism and radicalisation of the youth.
- Having regard to the global policy for the fight against all forms of discrimination against women, young people and children.
- Aware that together we can make the world a better place.
- Since development is an ultimate goal to be reached, calls for or requires the conjugation of all energies within the social body, thus leading to the balance of society.

In this vast transformational movement, youth retains an essential place. First of all, it is an actor of change, a privileged vector of social balance, in that it is at the heart of development today and tomorrow.

Finally, in view of this important place, it brings together all the reasons to first initiate, guide and make a process successful.

It is therefore, in view of this concern for development that we came up with the idea of creating the Pan-African Forum for Associative Youth ( F ORPAJA) , to allow us to be at the heart of the concerns of youth and population in urban and rural areas .
